

# MOVIE TRAILER REVAMP & MOVIE POSTER

For this task you will be recreating an original Movie Trailer and converting the genre. You will then be creating the Movie Poster for the revamped Movie.

## TASK 1:

- Source a Movie Trailer that you know and love.
- Screen record the trailer using Window's Shift R
- Save your Movie Trailer and Import the file into a film making program of your choice (Premiere Pro, Rush or Cap Cut)
- Find a new Score (sound) and save some still images that would work in your revamped version.
- Unlink the sound in your old trailer and change the image structure to suit your new Genre.
- Export your new trailer and save this file to submit along with your Movie Poster.

## TASK 2:

- Create a new Movie Poster for your production.
- **You must take the photo** that you will be using for the Poster.
- Use a program that you feel comfortable with to create your Movie Poster (Canva, Photoshop, Lightroom, Illustrator)
- Save the final and submit, along with your Movie Trailer.
